Priyadharshini

Chennai, Tamil Nadu | 9360656502 | priyaa58514@gmail.com | GitHub | LinkedIn | Portfolio

Objective

Motivated B.Sc. Computer Science with Artificial Intelligence student with a strong passion for software development, artificial intelligence, and emerging technologies. Eager to apply programming skills, contribute to real-world projects, and gain practical experience through internships while continuously learning and growing in a collaborative environment.

Education

Dwaraka Doss Goverdhan Doss Vaishnav College 2025 – 2028
Bachelor of Science in Computer Science with Artificial Intelligence *Chennai, Tamil Nadu*

Experience

Interain AI Jun 2026 – Jul 2026
Data Analyst Intern *Chennai, Tamil Nadu*

- Worked with structured datasets to explore data analysis concepts and identify patterns that improved decision-making insights.
- Performed data cleaning and preprocessing tasks, ensuring datasets were consistent, accurate, and analysis-ready.
- Assisted in creating clear reports and visual summaries to communicate findings in a structured manner.
- Gained exposure to data handling, analytics workflows, and introductory AI-related concepts across multiple domains.

Technical Skills

Programming Languages: Python, SQL, Java
Data Analytics & AI/ML: Data Analysis (Basics), Data Cleaning, Data Visualization (Basic), Machine Learning (Fundamentals), Artificial Intelligence (Introductory), Deep Learning (Basic Concepts)
Full Stack Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs, Full-Stack Development (Basic Level)
Databases & Tools: MySQL, MySQL Workbench, Jupyter Notebook, Visual Studio Code, IDLE (Python), DrJava, Antigravity IDE
Programming Concepts: Object-Oriented Programming (OOP), Data Structures, Functions, Control Flow, Exception Handling, Loops, Database Queries
Soft Skills: Communication, Problem Solving, Team Collaboration, Leadership, Critical Thinking

Certifications & Achievements

Value-Added Course – Web App Development using Django (50 Hrs) | *Futuro Focus* Nov – Dec 2025
Special Mention – BuildX 2026 Hackathon (24-Hr Virtual Hackathon) | *Vernatech LLP* Jun 2026

- Recognized for active participation in a 24-hour hackathon focused on problem-solving and innovation, contributing to ideation and solution development under time constraints.

Data Analytics Session – Brainstorming Agent Hackforge 2025 | *Vaishnav College* 2025

Projects

Contact Management System | *HTML, CSS, JS, Bootstrap, Django*

- Developed a full-stack web application to manage contacts with complete CRUD (Create, Read, Update, Delete) functionality.
- Designed a responsive user interface using HTML, CSS, Bootstrap, and JavaScript for an improved user experience.
- Implemented the backend using Django for secure data storage and retrieval.
- Added search and structured categorization features for efficient contact management.

TN Healthcare Scheme Decoder | *React, Node.js, Express.js, Groq API, Overpass API*

- Built an AI-powered web application that simplifies Tamil Nadu healthcare schemes into user-friendly information.
- Integrated the Groq API for intelligent query processing and response generation.
- Used the Overpass API for location-based data enhancement, improving contextual relevance.
- Developed a full-stack system using React and Node.js with a responsive UI and smooth navigation via React Router.

Achievements

Special Mention – BuildX 2026 Hackathon (24-Hour Virtual Hackathon) | *Vernatech LLP* Jun 2026

- Received Special Mention for developing an innovative AI-powered healthcare solution at the BuildX 2026 24-Hour Virtual Hackathon, recognized for the project's creativity, technical implementation, and real-world impact.
