Priyadharshini

Chennai, Tamil Nadu | 9360656502 | priyaa58514@gmail.com | GitHub | LinkedIn | Portfolio

Objective

Motivated B.Sc. Computer Science with Artificial Intelligence student and aspiring Full Stack Developer passionate about transforming innovative ideas into impactful digital experiences. Eager to combine web development skills, AI-driven thinking, and creative problem-solving to build intuitive applications that address real-world challenges while exploring emerging technologies and continuously growing as a developer.

Education

Dwaraka Doss Goverdhan Doss Vaishnav College 2025 – 2028
Bachelor of Science in Computer Science with Artificial Intelligence *Chennai, Tamil Nadu*

Experience

Interain AI Jun 2026 – Jul 2026
Data Analyst Intern *Chennai, Tamil Nadu*

- Worked with structured datasets to explore data analysis concepts and identify patterns that improved decision-making insights.
- Performed data cleaning and preprocessing tasks, ensuring datasets were consistent, accurate, and analysis-ready.
- Assisted in creating clear reports and visual summaries to communicate findings in a structured manner.
- Gained exposure to data handling, analytics workflows, and introductory AI-related concepts across multiple domains.

Technical Skills

Programming Languages: Python, SQL, Java
Data Structures & Algorithms: Arrays, Stacks, Queues, Linked Lists, Trees, Searching, Sorting
Data Analytics & AI/ML: Data Analysis, Data Cleaning, Data Visualization, Machine Learning Fundamentals, Artificial Intelligence, Deep Learning Basics
Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs, Django
Databases & Tools: MySQL, MySQL Workbench, Jupyter Notebook, Visual Studio Code, IDLE, DrJava, Antigravity IDE
Programming Concepts: Object-Oriented Programming (OOP), Functions, Control Flow, Exception Handling, Loops, Database Queries
Soft Skills: Communication, Problem Solving, Team Collaboration, Leadership, Critical Thinking

Certifications & Achievements

Value-Added Course – Web App Development using Django (50 Hrs) | *Futuro Focus* Nov – Dec 2025
Special Mention – BuildX 2026 Hackathon (24-Hr Virtual Hackathon) | *Vernatech LLP* Jun 2026

- Recognized for active participation in a 24-hour hackathon focused on problem-solving and innovation, contributing to ideation and solution development under time constraints.

Complete DBMS: ER Modeling, SQL and Concurrency Control | *Udemy* Jul 2026
Data Analytics Session – Brainstorming Agent Hackforge 2025 | *Vaishnav College* 2025

Projects

Contact Management System | *HTML, CSS, JS, Bootstrap, Django*

- Developed a full-stack web application to manage contacts with complete CRUD (Create, Read, Update, Delete) functionality.
- Designed a responsive user interface using HTML, CSS, Bootstrap, and JavaScript for an improved user experience.
- Implemented the backend using Django for secure data storage and retrieval.
- Added search and structured categorization features for efficient contact management.

TN Healthcare Scheme Decoder | *React, Node.js, Express.js, Groq API, Overpass API*

- Built an AI-powered web application that simplifies Tamil Nadu healthcare schemes into user-friendly information.
- Integrated the Groq API for intelligent query processing and response generation.
- Used the Overpass API for location-based data enhancement, improving contextual relevance.
- Developed a full-stack system using React and Node.js with a responsive UI and smooth navigation via React Router.

SchemeMatch AI | *React, Tailwind CSS, Node.js, Express.js, SQLite, Groq API*

- Proposed an AI-driven scheme-matching system to help marginalized entrepreneurs identify suitable government schemes based on their needs and eligibility.
- Designed an explainable, rule-based recommendation approach to improve transparency and user trust.
- Planned an AI layer for natural-language interaction and an SQLite database for structured scheme information.
- Explored multilingual accessibility and location-based assistance for improved usability.

Achievements

Special Mention – BuildX 2026 Hackathon (24-Hour Virtual Hackathon) | *Vernatech LLP* Jun 2026

- Received Special Mention for developing an innovative AI-powered healthcare solution at the BuildX 2026 24-Hour Virtual Hackathon, recognized for the project's creativity, technical implementation, and real-world impact.
